PROFILE SUMMARY

A motivated and enthusiastic front-end developer with a strong foundation in web development principles and a passion for creating user-friendly, responsive websites. Proficient in HTML5, CSS3, TailwindCSS and JavaScript, with experience in React.js and basic knowledge of UI/UX principles. Currently pursuing a Master's in Computer Applications (MCA) and Equipped with practical knowledge from small projects, I am committed to learning new technologies and delivering efficient solutions.

PROJECT

project:1

Task Manager:A Task Manager application that allows users to create, update, and delete tasks. Users can log in to manage their tasks securely. The frontend is built with React.js for a dynamic interface, while the backend uses Node.js and Express.js to handle API requests and interact with a MongoDB database.

Features: Secure user authentication with JWT, create, update, and delete tasks, and view tasks with filtering and sorting options. The app is responsive for mobile, tablet, and desktop devices.

Tech Stack:Frontend with React.js and Tailwind css. Backend with Node.js and Express.js, and database using MongoDB. Authentication with JSON Web Tokens (JWT).

project:3

TripAdvisor Clone: Developed a fully responsive travel website clone using HTML, CSS, and JavaScript. Features include interactive user reviews, destination search, poll questions, and dynamic content rendering. Focused on creating an engaging UI with smooth transitions and cross-browser compatibility.

EXPERIENCE

Intern[NXWEB Company]
Duration:[may/2024 - june/2024]
Location:[Coimbatore,Tamilnadu]
Description:Developed responsive, high-performance web applications using React, HTML, CSS, and JavaScript, with a focus on UI/UX optimization and API integration.
